COMMUNITY NATIONAL BANK CNB

Deposit checks electronically, anytime day or night, right from your desk.

DeskTop Banker remote capture service from Community National Bank brings you a faster, safer way to deposit the checks your business receives, without having to leave your office or store.

By using a state-of-the-art desktop check scanner and the accompanying software for your PC, both of which we supply, you just scan both sides of the checks in a single pass. The dollar amounts for the checks are automatically read by your PC, and the deposit is totaled. Then, simply click "submit deposit" and the funds are instantly deposited into your account through a secure internet connection.

DeskTop Banker from Community National Bank is the fastest way to turn your check deposits into ready cash. Just look at all the advantages:

- Faster funds availability
- Make deposits 24/7
- Save time preparing deposits
- Eliminate courier service or trips to the bank
- Streamline your cash flow by consolidating deposits from multiple locations
- Reduce risk of check fraud

Here's how DeskTop Banker works:

Scan checks from any desktop.

Using a desktop check scanner, simply scan both sides of the checks in a single pass.

Prepare the deposit.

View images of the scanned checks right from your PC. The dollar amounts for the checks are automatically read and the deposit is totaled.

Electronically send deposit to CNB.

Click SUBMIT DEPOSIT. The deposit is sent to the bank through a secure internet connection.

Funds are deposited into your account.

Access funds typically 1 to 3 days sooner than traditional deposits.

For more information, see your Community National Bank representative at any branch office, call: Donna Frasco at (516) 498-9111, ext. 111 or log on to cnbny.com
